

Ways to “Make the Ask”

Group solicitation, followed up by peer to peer solicitation are the most effective and efficient ways to campaign. It assures that the maximum amount of consistent information reaches all employees.

Experience shows that the best results are achieved when “the ask” is made during an already scheduled meeting. Also consider segmenting your group solicitation efforts by employee divisions (i.e., key management, hourly, etc.) This allows you to target your message.

Recruit enthusiastic, responsible people representing the key areas of your organization, ideally, one solicitor for every 20 employees. Give the solicitors the information and motivation needed to do the job right.

Solicitor Best Practices

Know Your Facts!

Study the Campaign materials and brochure. Learn as much about United Way of Forsyth County partner agencies and programs as you can.

See Your Prospects In Person!

Personal contact is the way to solicit. If your prospect is not available, do not leave materials with a note. Return to see him or her later.

Show Enthusiasm and Confidence!

Your attitude creates a strong impression and your enthusiasm is contagious.

Always Say Thank You!

A little courtesy goes a long way.
